

## EM-P-02 Environmental Policy Statement of Intent

We recognise that environmental issues are of fundamental importance both and as part of a successful and responsible business strategy. Therefore, we are committed to ensuring that the environmental impact of our operations will be minimised by preserving, protecting, and improving the environment, and by the prevention of pollution.

EE Smith Contracts Limited will ensure that the necessary resources are made available to achieve successful environmental management throughout the business. Responsibility for implementation within the business is then delegated through line management.

We will continue to undertake a full analysis of all our environmental aspects and impacts, to develop a comprehensive environmental management system. This system will then be used to ensure, as a minimum, that legal requirements are met, along with industry best practice and the company's own standards. In addition, this analysis will also allow the setting of specific targets and objectives to ensure ongoing continuous improvement.

We have established this Environmental Policy to be consistent with the purpose and context of our Organisation. It provides a framework for the setting and review of environmental objectives in addition to our commitment towards the following:

- Protect the environment, including the prevention of pollution
- To use sustainable resource, climate change mitigation, protection of biodiversity and ecosystems
- Conform to applicable legislative, regulatory and compliance obligations
- Continually improve our Environmental Management System and to enhance environmental performance

We have produced environmental objectives which relate to this policy, and they can be found in document ER05-01 Environmental Objectives.

We will ensure that environmental considerations are taken into account throughout our sphere of operations and in doing so expects the full co-operation and commitment of our staff, employees, subcontractors and suppliers in meeting the requirements of this Policy Statement.

This policy is communicated to all interested parties as well as being made available to the wider community through publication on our Website, Company Noticeboard, and Intranet.
